Dear Dr. Hinton:

Please refer to your supplemental new drug application dated November 17, 2001, received November 20, 2001, submitted under section 505(b) of the Federal Food, Drug, and Cosmetic Act for Estrostep® 21/ Fe (norethindrone acetate/ethinyl estradiol).

We acknowledge receipt of your submissions dated January 23, May 31, 2001, and June 26 and 29, 2001.

This supplemental new drug application provides for a new indication for acne vulgaris.

We have completed the review of this supplemental application, as amended, and have concluded that adequate information has been presented to demonstrate that the drug product is safe and effective for use as recommended in the agreed upon enclosed labeling text. Accordingly, the supplemental application is approved effective on the date of this letter.

The final printed labeling (FPL) must be identical to the enclosed labeling (text for the package insert, text for the patient package insert, immediate container and carton labels).

Please submit the copies of final printed labeling (FPL) electronically according to the guidance for industry titled *Providing Regulatory Submissions in Electronic Format - NDA* (January 1999). Alternatively, you may submit 20 paper copies of the FPL as soon as it is available but no more than 30 days after it is printed. Please individually mount ten of the copies on heavy-weight paper or similar material. For administrative purposes, this submission should be designated "FPL for approved supplement NDA 20-130/S-007." Approval of this submission by FDA is not required before the labeling is used.

In addition, please submit three copies of the introductory promotional materials that you propose to use for this product. All proposed materials should be submitted in draft or mock-up form, not final print. Please submit one copy to this Division and two copies of both the promotional materials and the package insert directly to:
